Lasne Maransart project of 375 trees, 2023-2024

 375 trees planted

This 375-tree project in Lasne Maransart benefits biodiversity. It is a plantation of 15 cells of 25 plants each (375 trees). The tree species planted are sessile oak (5 cells), pubescent oak (4 cells), blackbeam (3 cells), and Byzantine hazel (3 cells).

Care for communities

At Go Forest, we don't just plant trees. We engage in much more, such as ensuring sustainable support for local communities. We do so by using the UN Sustainable Development Goals, which serve as a blueprint for peace and prosperity for people and the planet, now and in the future. Depending on the region and the project, you'll be supporting different SDGs.
