Ursar afforestation area, Armenia

 234 trees planted

During 2023, new trees were planted on this beautiful site which hosts a total of new 120353 trees that fall. Trees contributed by Go Forest members during 2022, 2023 and 2024 are all dedicated to this site. Up to now, 11767 trees from 2022 and 2333 trees from 2023. The site has excellent climatic and soil conditions to grow a forest. During the summer monitoring round, the trees planted in the spring of 2023 were doing great. Because of this positive feedback, we continued planting in fall 2023. Area: 360 ha Elevation: 1700 – 2000 m Exposition: N Main tree species: walnut, oak, wild apple, maple, pines, and shrub Status: started spring 2023

Care for communities

At Go Forest, we don't just plant trees. We engage in much more, such as ensuring sustainable support for local communities. We do so by using the UN Sustainable Development Goals, which serve as a blueprint for peace and prosperity for people and the planet, now and in the future. Depending on the region and the project, you'll be supporting different SDGs.
